GRIDLOC

GRIDLOC Grille Screens Patented 'Rivetless' Security Screens & Doors.

The **GRIDLOC** Security Door and Window System represents the first major improvement to home security within Australia. Using a 60 tonne Hydraulic Press, a series of grips are compressed into the perimeter edge of the grille on all sides. The grille then locks within its framework preventing withdrawal.

The 7mm grille is secured to its frame at every point of contact which provides a superior strength of manufacture in comparison to other riveted products.

The **GRIDLOC** "Rivetless" system can be used with any approved security grille design and can be manufactured for all custom made applications.

Australian Standards

	AS5039 Shear Test	✓
	AS5039/41 Impact Test	✓
	AS5039/41 Pull Test	✓
	AS5039/41 Lock & Hinge Lever Test	✓
